

**APRIL 26TH 2025
@ 12PM**

WORLD DAY FOR ANIMALS IN LABORATORIES

Please join us for a day of **education, memorial, and protest** for animals used, harmed, and killed in research laboratories.

Hear the scientific argument for non-animal models from **Animal Free Research**, see inside a laboratory with **We The Free**, and hear a video address from **Chris Packham**. You'll also learn how 22 puppies were saved from research by **Animal Rising**, and about **Camp Beagle**, the world's longest animal freedom protest!

This event is for all the family to **learn** about animal testing, **pay respects** to the animals who have died, and **protest for a kinder tomorrow**.
