Findings

Newly designated refurbished Building REDACTED now stocked. Been in use for 3 weeks and almost fully stocked.

I have queried lack of bedding .Animals only have platform and there is no bedding material or bed on floor.Previous pens had blue barrels that dogs could use for play and sleeping.

Will follow up by inspection to see if anything is further progressed.

I was shown an internal room that is in process of being refurbished for use as an inside exercise areas. At last visit it was concrete finish only. This time it is being faced with white roc type covering for walls and has had some skylight panels added for light. Will also have fans. Still a work in progress but looking promising.

On day of visit it was very warm outside. Flies have been an intermittent problem in some of units but kept down by regular drain flushing and treatment. Today there was little to note in this regard and despite heat flies were nil to minimal in units inspected.
